CRISIS ALERT

Security Council

Aggelos Talpas - President

New Human Rights Council (HRC) Report reveals massive wave of sex trafficking in Latin America. More specifically, more than 1500 women have been reported missing in the past month- which the HRC attributes to drug cartels, as well sex and human trafficking crime organisation, which are active across Brazil, Colombia and Mexico.

“Latinas, latinas, latinas...”

Donald Trump - US President

United States President Donald Trump has publicly announced that he has signed an executive order, demanding US Army troops to firstly enhancing domestic border security, as well as the deployment of troops across the borders between Brazil and Colombia, in order to attempt to control and monitor the moves of known cartels though South America, before reaching the US. The order is to take place on the 17 of February 2025.

ANOTHER ONE!

Marvel Summit

Natalia Bortnyk - President

The Time Variance Authority (TVA), the organisation responsible for regulating the flow of time and preventing multiversal threats, has collapsed. This event has triggered a massive breakdown in the structure of reality itself. As a result, multiversal incursions are occurring at an alarming rate. Alternate timelines and realities are colliding with this one, causing territorial overlaps, the emergence of duplicate individuals, and widespread political and social instability.

This collapse has allowed evil variants of historically good superheroes and other unpredictable forces to cross into this reality, bringing with them the potential for chaos. With the loss of TVA's control, there is now no unified authority to prevent these realities from converging, resulting in a global crisis that threatens every aspect of society.

EMPOWERMENT

IN MUN

Empowerment will always be an essential part of humanity, especially amongst children. Chosen carefully as the MUN theme by Ms Tsiliampari (MUN Director) and Christina Palamidi (Secretary General), it urged all students to remain considerate and uplifting between one another over the course of the SCMUN. It acted as a reminder to all members of the conference that regardless of the differences dividing us, true union will only succumb from an inclusive society, willing to accept others and support them.

As stated by Christina, “Empowerment is about providing individuals and communities with the tools, resources and opportunities they need to reach their full potential.” Hopefully, this theme will remain an influential one to all students, sticking with them for long after this weekend. Empowerment is more than merely a concept, it’s the key to a successful life. By making ‘Empowerment’ the theme of the conference, we aimed to communicate to all students the importance of keeping this as one of their core values throughout their life. Empowerment is a necessary part of development, innovation, unity and most importantly happiness.

INTERNATIONAL COURT OF JUSTICE

THE CASE OF BOSNIA AND HERZEGOVINA V.S SERBIA AND MONTENEGRO

In the International Court of Justice, Bosnia and Herzegovina accused Serbia and Montenegro of genocide. Witnesses were brought in, defending both sides of the genocide and the judges were asked to then discuss and come up with their verdicts, siding with one of the two countries.

**JUDGES, WITNESSES,
VERDICTS ALL WORKING
